SUSTAINABLE FUTURES TRAININGS

CERTIFICATE OF ATTAINMENT

This is to certify that

has attended and successfully completed the course assessment and examination for the

ISO 14001:2026
LEAD AUDITOR TRANSITION COURSE

This course covered transition-focused learning and practical auditor evaluation, delivered through listed, structured, self-paced modules of ISO 14001:2026 Environmental Management System requirements. It included clause-by-clause comparison with ISO 14001:2015, organizational context, environmental conditions, leadership and policy updates, planning and change management, lifecycle perspective integration, operational control, external provider oversight, performance evaluation, audit objective enhancements, management review, corrective action effectiveness, continual improvement, and evidence-based transition auditing practices aligned with modern environmental management requirements.

This course included a written examination and competency assessment covering ISO 14001:2026 transition requirements, key changes from ISO 14001:2015, updated EMS requirements, audit planning and execution, evaluation of transition readiness, identification of implementation gaps, nonconformity assessment, corrective action effectiveness, and the application of evidence-based auditing principles and professional judgment in accordance with internationally recognized auditing practices.

Duration : **3 Hours**

Mode: **E-Learning, Video-based, Self-paced**

PROGRAM TRANSCRIPT

Name :

Overall Grade:

Training Program : ISO 14001:2026 LEAD AUDITOR TRANSITION COURSE

This transcript outlines the curriculum and assessments completed under the ISO 14001:2026 Transition Course, aligned with ISO 14001:2026, ISO 14001:2015 comparison requirements, and internationally recognized environmental management practices for managing transition changes, evaluating EMS effectiveness, strengthening audit readiness, and improving environmental performance.

Course Curriculum	Description
Introduction ISO 14001:2026 Transition Training	Introduces the ISO 14001:2026 transition, explaining why the revision matters and how auditors should approach clause-wise change analysis.
Clause 4 Changes - Context, Environment Conditions and lifecycle scope	Explains Clause 4 changes, focusing on environmental context, climate change, biodiversity, interested party expectations and EMS scope linkage.
Clause 5 Changes - Leadership Policy and Accountability	Explains Clause 5 changes, focusing on leadership accountability, environmental policy updates, compliance obligation wording and stronger environmental commitments.
Clause 6 Changes - Planning , Risks , Environment Aspects and EMS Changes Management	Explains Clause 6 changes, focusing on structured planning, risks and opportunities, lifecycle-based aspects, objectives and new planning of changes requirements.
Clause 7 Changes : Support , Communication and Documented Information	This module explains Clause 7 changes, focusing on support processes, competence, awareness, communication updates and ensuring documented information is available and suitable for effective EMS implementation.
Clause 8 Changes - Operational Planning and Control	This module explains Clause 8 changes, focusing on operational planning and control, external provider management, strengthened lifecycle perspective and environmental controls across operational activities.
Clause 9 Changes : What Auditors Need to Verify	This module explains Clause 9 changes, focusing on performance evaluation, audit objectives, management review structure and evidence-based EMS effectiveness.
Clause 10 Changes : Improvement and Corrective Action	This module explains Clause 10 changes, focusing on continual improvement integration, corrective action effectiveness, root cause evaluation and achieving measurable environmental performance improvement.
ISO 14001:2026 Transition Summary	This module explains the final transition summary, focusing on clause-wise comparison, key changes, auditor interpretation and practical evidence verification for ISO 14001:2026.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
