SUSTAINABLE FUTURES TRAININGS

CERTIFICATE OF ATTAINMENT

This is to certify that

has attended and successfully completed the course assessment and examination for the

ISO/IEC 27001:2022
ISMS INTERNAL AUDITOR COURSE

This course provides participants with the knowledge and competence required to plan, conduct, report, and follow up on internal audits of an Information Security Management System (ISMS) in accordance with ISO/IEC 27001:2022 requirements and ISO 19011:2018 auditing guidelines.

Participants will develop an understanding of internal audit principles, audit planning, preparation of audit checklists, determination of audit scope and criteria, collection and evaluation of objective evidence, and assessment of ISMS conformity and effectiveness.

The course focuses on practical auditing techniques, including conducting interviews, sampling methods, identifying nonconformities, preparing audit findings, evaluating corrective actions, and supporting continual improvement activities within an organisation.

Successful completion enables participants to effectively perform internal ISMS audits, provide value-driven audit results, and support organisations in maintaining compliance, improving information security controls, and enhancing the overall effectiveness of their ISO/IEC 27001:2022 management system.

This course is designed for professionals seeking to develop auditing capability and strengthen their role in information security governance, risk management, compliance, and ISMS improvement initiatives. It provides the foundation required to progress towards advanced ISO/IEC 27001 Lead Auditor competencies and professional auditing roles.

Duration : **24 Hours / 3 Day**

Mode: **Tutor-Led**

Training Program ISO/IEC 27001:2022 ISMS INTERNAL AUDITOR COURSE

This Program Transcript confirms successful completion of the ISO/IEC 27001:2022 ISMS Internal Auditor Training Programme, covering internal audit principles, audit planning and preparation, audit scope and criteria, audit techniques, objective evidence collection, ISMS conformity evaluation, nonconformity identification, audit reporting, corrective action verification, and follow-up activities in alignment with ISO/IEC 27001:2022 requirements and ISO 19011:2018 auditing guidelines.

Course Curriculum	Description
Introduction to ISMS Internal Auditing	Understand the purpose, role, and importance of internal audits in evaluating the effectiveness of an Information Security Management System (ISMS).
ISO/IEC 27001:2022 Requirements Review	Gain an understanding of ISO/IEC 27001:2022 clauses and requirements applicable for internal audit assessment.
ISO 19011:2018 Audit Principles & Guidelines	Learn the fundamental principles, approaches, and guidelines for conducting effective management system audits.
Audit Planning & Preparation	Understand how to define audit objectives, scope, criteria, resources, and prepare audit plans and checklists.
Conducting an Internal ISMS Audit	Learn the process of initiating, conducting, and managing internal audit activities within an organisation.
Audit Evidence Collection & Evaluation	Develop skills to collect, verify, and evaluate objective evidence through document review, interviews, and observations.
Audit Techniques & Interview Methods	Learn effective techniques for questioning, sampling, verification, and gathering reliable audit information.
Assessing ISMS Conformity & Effectiveness	Evaluate whether ISMS processes, controls, and practices meet ISO/IEC 27001:2022 requirements and organisational objectives.
Audit Findings & Nonconformity Management	Understand how to identify, classify, document, and communicate audit findings and nonconformities.
Audit Reporting & Follow-up Activities	Learn how to prepare audit reports, communicate conclusions, and verify completion of corrective actions.
Corrective Actions & Continual Improvement	Understand how audit results support root cause analysis, corrective actions, and improvement of the ISMS.
Practical Audit Exercises & Case Studies	Apply internal auditing concepts through practical scenarios, examples, and simulated audit activities.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
