CERTIFICATE OF ATTAINMENT

This is to certify that

has attended and successfully completed the course assessment and examination for the

ADVANCED FOOD FRAUD MITIGATION AND AUDITING FSSC 22000:2018 VERSION 6

The course covered competency-based learning and evaluation on food fraud prevention and control, including food fraud fundamentals, FSSC 22000 Version 6 requirements, vulnerability assessment methodology, identification of significant vulnerabilities, mitigation planning, verification measures, and integration with the Food Safety Management System.

The participant gained practical understanding of team competence requirements, training needs, supplier assurance, objective evidence evaluation, audit methodology, and audit-ready implementation practices to support effective food fraud management within an organization.

Duration : **4 Hours**

Mode: **Online/Tutor Led**

Training Program : ADVANCED FOOD FRAUD MITIGATION AND AUDITING FSSC 22000:2018 VERSION 6

The participant successfully completed a 4-hour competency-based training programme on Food Fraud Mitigation and Auditing under FSSC 22000 Version 6. The course covered food fraud fundamentals, vulnerability assessment, determination of significant vulnerabilities, mitigation planning, FSMS integration, verification measures, supplier assurance, objective evidence evaluation, and audit-ready implementation practices. The participant demonstrated understanding of how to identify, assess, control, verify, and audit food fraud vulnerabilities within a Food Safety Management System.

Course Curriculum	Description
Foundation of Food Fraud and FSSC 22000 Requirements	This course provided competency-based learning and evaluation in Food Fraud Mitigation and Auditing under FSSC 22000 Version 6. It covered food fraud fundamentals, vulnerability assessment, significant vulnerability determination, mitigation planning, FSMS integration, verification, supplier assurance, and audit-ready practices. The participant demonstrated understanding of how to identify, control, and audit food fraud vulnerabilities within an FSMS.
Food Fraud vulnerability Assessment	This module provided structured learning and evaluation on Food Fraud Vulnerability Assessment under FSSC 22000 Version 6. It covered FFVA methodology, vulnerability identification, key risk factors, significance determination, team involvement, and linkage to mitigation planning. The participant demonstrated understanding of conducting and reviewing an evidence-based, audit-ready FFVA.
Determining Significant Vulnerabilities	This module provided structured learning and evaluation on determining significant food fraud vulnerabilities under FSSC 22000 Version 6. It covered significance criteria, evidence-based decision methods, risk-based evaluation, documentation logic, audit weaknesses, and linkage to mitigation planning. The participant demonstrated understanding of making credible, traceable, and audit-ready significance decisions.
Food Fraud Mitigation Measure and Mitigation Planning	This module provided structured learning and evaluation on developing a Food Fraud Mitigation Plan under FSSC 22000 Version 6. It covered FFVA linkage, proportionate mitigation measures, verification procedures, responsibilities, records, review triggers, FSMS support, supplier assurance, and audit weaknesses. The participant demonstrated understanding of developing, maintaining, and auditing an effective mitigation plan.
FSMS Integration, Team Competence and Training	This module covered FSMS integration of food fraud mitigation under FSSC 22000 Version 6, including training, audits, review, records, competence, communication, and continual improvement. The participant demonstrated understanding of maintaining effective food fraud controls within the FSMS.
Auditing Food Fraud under FSSC 22000	This module covered FSMS integration of food fraud mitigation under FSSC 22000 Version 6, including training, audits, review, records, corrective action, team competence, and communication. The participant demonstrated understanding of implementing and maintaining food fraud controls within the FSMS.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
