CERTIFICATE OF ATTAINMENT

This is to certify that

has attended and successfully completed the course assessment and examination for the

GDPR - EU DATA PROTECTION FOUNDATION COURSE

This course provides a practical introduction to the General Data Protection Regulation (GDPR) and its application in modern organizations, delivered through listed, structured, self-paced modules of GDPR principles and compliance practices. Participants will explore key GDPR principles, individual rights, organizational responsibilities, and breach management practices through the BlueSky Fitness case study. The course also demonstrates how ISO 27001 and ISO 27701 support privacy governance and information security, enabling learners to build a strong foundation in data protection and maintain effective GDPR compliance within their organizations.

Duration : **2 Hours**

Mode: **E-Learning, Video-based, Self-paced**

Training Program : GDPR - EU DATA PROTECTION FOUNDATION COURSE

This transcript documents the curriculum and assessment requirements successfully completed by the participant as part of the 2-hour GDPR Foundation Course. The course provided a structured understanding of the legal framework, core principles, individual rights, organizational responsibilities, and practical implementation requirements of the General Data Protection Regulation (EU) 2016/679. The participant demonstrated foundational knowledge of GDPR compliance, data protection principles, breach management, accountability, and privacy-related responsibilities applicable to organizations handling personal data.

Course Curriculum	Description
GDPR Course Orientation and Regulatory Context	This module introduced the GDPR Data Protection Basics course, including the course structure, learning objectives, instructor overview, and the BlueSky Fitness case study. It provided a high-level understanding of GDPR, its global importance, key data protection concepts, and the learning pathway for applying GDPR principles in practical organizational contexts.
Introduction to GDPR	This module introduced the General Data Protection Regulation (GDPR), including its purpose, origins, global relevance, and key privacy concepts. It covered the roles of data subjects, data controllers, and data processors, along with individual rights, organizational responsibilities, the BlueSky Fitness case study, and the relationship of GDPR with ISO 27001 and ISO 27701 standards.
Principles of Data Protection	This module covered the core GDPR data protection principles that guide the lawful, fair, transparent, and responsible processing of personal data. Learners explored purpose limitation, data minimization, accuracy, storage limitation, and ethical data handling through the BlueSky Fitness case study, with reference to how ISO 27001 and ISO 27701 support GDPR compliance through security and privacy controls.
Rights of Individuals under GDPR	This module covered the rights of individuals under GDPR, including access, rectification, erasure, portability, and restriction of processing. Learners explored how organizations should manage data subject requests, respond to subject access requests, and protect privacy rights in a compliant manner, using the BlueSky Fitness case study and guidance from ISO 27001 and ISO 27701.
Responsibilities of Organizations under GDPR	This module covered the key responsibilities of organizations under GDPR, including the roles of data controllers, data processors, and Data Protection Officers. Learners explored Data Processing Agreements, Data Protection Impact Assessments, privacy by design, third-party data processing, and organizational accountability through the BlueSky Fitness case study, with alignment to ISO 27001 and ISO 27701.
Breach Management and Compliance Monitoring	This module covered GDPR breach management and ongoing compliance monitoring, including breach identification, containment, reporting timelines, documentation, and organizational responsibilities. Learners explored incident response planning, audit practices, and continuous compliance controls through the BlueSky Fitness case study, with reference to ISO 27001 and ISO 27701 for strengthening data security and privacy management.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
