CERTIFICATE OF ATTAINMENT

This is to certify that

Jane Doe

has attended and successfully completed the course assessment and examination for the

EU CYBERSECURITY COMPLIANCE CORE (NIS2 & DORA)

This certificate is awarded for the successful completion of the two-hour course Cybersecurity Regulation in the European Union, delivered through listed, structured, self-paced modules of EU cybersecurity regulation and compliance requirements.

The participant has demonstrated an understanding of key EU cybersecurity regulatory concepts, including the NIS2 Directive, incident reporting obligations, enforcement expectations, GDPR alignment, cybersecurity governance, risk management, and organizational responsibilities for data protection and digital resilience within the EU regulatory framework. This achievement reflects the participant's commitment to maintaining awareness of evolving cybersecurity and compliance requirements within the European Union.

Duration : **2 Hours**

Mode: **E-Learning, Video-based, Self-paced**

Issue Date : **03 August 2026**

Certificate No. : **2026-05-101-001/123**

Unique Delegate No. : **2026-0042-123**

PROGRAM TRANSCRIPT

Name : Jane Doe

Overall Grade: 85%

Training Program : EU CYBERSECURITY COMPLIANCE CORE (NIS2 & DORA)

This 2-hour course provided comprehensive and structured learning on Cybersecurity Regulation in the European Union, covering key regulatory concepts and frameworks, NIS2 Directive requirements, incident reporting obligations, enforcement expectations, and the relationship between cybersecurity regulations and GDPR. The course also addressed organizational responsibilities for cybersecurity governance, risk management, and data protection compliance, providing participants with a broader understanding of the legal and operational requirements applicable within the EU regulatory landscape.

Course Curriculum	Description
Welcome to EU Cybersecurity Compliance Core	Introduces the EU cybersecurity regulatory ecosystem, course structure, learning pathway, and expectations. Learners are oriented to key institutions such as ENISA and to the case organization used throughout the program. This module establishes baseline understanding and prepares learners for regulatory learning
Introduction to Cybersecurity Regulationin the EU	Explores the evolution of EU cybersecurity regulation, including the EU Cybersecurity Act, the role of national authorities, CSIRTs, and ENISA. Learners gain an overview of how cybersecurity governance operates across Member States and why harmonized regulation is essential.
Overview of the NIS2 Directive	Provides a structured introduction to the NIS2 Directive, including its objectives, scope, covered sectors, and classification of essential and important entities. Emphasis is placed on governance responsibilities, management accountability, and high-level compliance obligations.
The Digital Operational Resilience Act	Introduces DORA as a sector-specific regulation for financial entities. Learners examine DORA’s five core pillars, its focus on ICT risk management, and its relevance to financial services organizations operating within the EU
Understanding Digital Resilience	Provides a structured introduction to the NIS2 Directive, including its objectives, scope, covered sectors, and classification of essential and important entities. Emphasis is placed on governance responsibilities, management accountability, and high-level compliance obligations
Compliance Standards Mapping	Explains how EU regulatory requirements align with international standards, including ISO/IEC 27001, ISO 22301, GDPR, and the NIST Cybersecurity Framework. Learners develop foundational understanding of control mapping and how standards support regulatory compliance and audit readiness
Completion of Cybersecurity Regulation in the EU	The final assessment integrates content from all modules, including EU cybersecurity governance, the NIS2 Directive, the Digital Operational Resilience Act (DORA), digital resilience concepts, and the mapping of regulations to international standards such as ISO/IEC 27001 and ISO 22301

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
