CERTIFICATE OF ATTAINMENT

This is to certify that

Jane Doe

has attended and successfully completed the course assessment and examination for the

FSSC 22000 CATEGORY E PRP IMPLEMENTATION AND AUDIT TRAINING FOR CATERING OPERATIONS

This certificate is awarded in recognition of successful completion of the FSSC 22000 Category E PRP Implementation and Audit Training for Catering Operations, delivered through listed, structured, self-paced modules of catering prerequisite programme implementation and audit requirements. The participant has demonstrated professional understanding of prerequisite programme implementation, catering process controls, hygiene and sanitation practices, allergen management, time-temperature control, storage and service requirements, monitoring activities, audit evidence review, food safety risk identification, and nonconformity writing. This training supports the participant's competence in applying and auditing food safety controls within catering, food service, kitchen, cafeteria, and related operational environments.

Duration : **3 Hours**

Mode: **E-Learning, Video-based, Self-paced**

Issue Date : **03 August 2026**

Certificate No. : **2026-05-101-001/123**

Unique Delegate No. : **2026-0042-123**

PROGRAM TRANSCRIPT

Name : Jane Doe

Overall Grade: 85%

Training Program : FSSC 22000 CATEGORY E PRP IMPLEMENTATION AND AUDIT TRAINING FOR CATERING OPERATIONS

This transcript confirms successful completion of the 3-hour professional training on FSSC 22000 Category E PRP requirements for Catering Operations. The participant has demonstrated understanding of catering process controls, hygiene practices, allergen management, time-temperature control, monitoring, audit evidence review, food safety risk identification, and nonconformity writing to support safe and compliant catering and food service operations.

Course Curriculum	Description
PRP Fundamentals in FSSC 22000 Food Manufacturing	This module certifies successful completion of PRP Fundamentals training in FSSC 22000 Food Manufacturing. Training covered prerequisite programme requirements, hazard control, hygiene practices, operational controls, and audit verification.
Facility, Layout, Utilities, Waste, and Equipment Controls in Catering Operations	This module certifies completion of training on facility, utilities, waste, and equipment controls in catering operations. The participant demonstrated understanding of hygienic infrastructure, layout, waste handling, equipment controls, and audit requirements, supporting competence in identifying risks and applying corrective actions in food service environments.
Raw Material Control, Storage, Cross-Contamination, and Allergen Management	This module certifies successful completion of training on Raw Material Control, Storage, Cross-Contamination, and Allergen Management in Catering Operations. The participant demonstrated understanding of supplier approval, goods receipt, storage controls, stock rotation, segregation, labeling, traceability, allergen control, and cross-contamination prevention. Training supported practical competence in evaluating material control systems, identifying audit red flags, and writing effective findings for catering and food service environments.
Cleaning and Sanitation, Pest Control, Personnel Hygiene, and Employee Practices	This module confirms training in cleaning, sanitation, pest control, personnel hygiene, and employee practices in catering operations. Participants gained knowledge of hygiene procedures, pest prevention, sanitation verification, and safe food-handling practices.
Catering Process Controls Preparation, Cooking, Holding, Transport, Service, and Leftovers	Training covered catering process controls, food safety practices, allergen management, monitoring, and audit findings in catering operations.
Audit Application, Evidence Gathering, Nonconformity Writing, and Final Assessment	This module confirms training in catering process controls, including preparation, cooking, reheating, holding, transport, service, buffet display, leftover management, allergen control, monitoring, and audit evidence review. Participants gained practical understanding of how to verify implemented controls, identify food safety risks, and write audit findings in catering and food service operations.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
