CERTIFICATE OF ATTAINMENT

This is to certify that

Jane Doe

has attended and successfully completed the course assessment and examination for the

ISO 19011:2018 – GUIDELINES FOR AUDITING MANAGEMENT SYSTEMS

This certificate is awarded for successful completion of the listed, structured, self-paced modules covering the essentials of ISO 19011:2018 Guidelines for Auditing Management Systems, demonstrating foundational knowledge of audit principles, audit types, audit programme management, audit planning, audit evidence collection, audit findings, non-conformities, audit reporting, and audit closure.

The learner has gained an understanding of how audits are planned, conducted, documented, and reviewed in a systematic manner. This certificate reflects the learner's ability to apply ISO 19011:2018 guidelines to support effective auditing practices and continual improvement across management system.

Duration : **9 Hours**

Mode: **E-Learning, Video-based, Self-paced**

Issue Date : **03 August 2026**

Certificate No. : **2026-05-101-001/123**

Unique Delegate No. : **2026-0042-123**

**Program Director

Training Program

: ISO 19011:2018 – GUIDELINES FOR AUDITING MANAGEMENT SYSTEMS

This transcript outlines the curriculum and assessments completed under the ISO 19011:2018 Guidelines for Auditing Management Systems course, aligned with ISO 19011:2018 auditing guidelines and commonly applied management system auditing practices.

The course covers audit principles, audit types, audit programme management, audit objectives, scope and criteria, audit planning, selection of audit team members, audit execution, evidence collection, audit findings, non-conformity identification, audit reporting, audit records, audit follow-up, and audit closure.

Course Curriculum	Description
Introduction : ISO 19011: 2018 Guidelines For Auditing Management Systems	This video briefly introduces the ISO 19011:2018 auditing course and its practical learning approach.
Reasons for Conducting Audits	Explains the purpose, value, and organizational benefits of conducting effective management system audits.
Understanding Types of Audits	Introduces different audit types and their application in internal, supplier, and certification contexts.
Key Audit Terms (ISO 19011)	Builds understanding of essential ISO 19011 audit terminology used in professional auditing practice.
Principles of Auditing	Covers core auditing principles required for ethical, objective, and reliable audit performance.
Managing an Audit Programme	Explains how audit programmes are planned, implemented, monitored, and improved systematically.
Understanding the Auditee's Context	Highlights the importance of organizational context in effective audit programme management.
Introduction to ISO 14001 Audit Programme	Introduces environmental management system audit programmes aligned with ISO 14001 requirements.
Managing an Audit Programme Using PDCA	Applies the PDCA cycle to structure and improve audit programme management.
Establishing Audit Programme Objectives	Explains how clear audit objectives support effective planning and audit programme direction.
Example Audit Programme Objectives	Provides practical examples for defining meaningful and measurable audit programme objectives.
Audit Programme Risks and Opportunities	Introduces risk-based thinking for identifying audit programme risks, opportunities, and controls.
Roles and Responsibilities of Audit Programme Manager	Defines the key duties and accountability of an effective audit programme manager.
Meet Maya, Audit Programme Manager	Uses a practical scenario to demonstrate audit programme management responsibilities in action.
Establishing the Extent of an Audit Programme	Explains how to define audit programme boundaries, coverage, frequency, and complexity.
Audit Programme Resources	Covers resource planning, competence, time, tools, and support required for audits.
Implementing Audit Programme	Explains practical steps for executing an audit programme in accordance with ISO 19011.
Defining Objectives, Scope, and Criteria	Introduces the foundation for planning individual audits with defined objectives, scope, and criteria.
Selecting Audit Team Members	Explains how audit scope determines audit boundaries, locations, processes, and activities.
Introduction to Audit Criteria	Covers the standards, procedures, requirements, and references used as audit criteria.
Introduction to Audit Scope Definition	Explains how to select competent audit team members based on audit requirements.
Assigning Responsibility for an Individual Audit	Describes how audit responsibilities are assigned to ensure effective audit execution.
Managing Audit Programme Results	Explains how audit outcomes are reviewed, evaluated, communicated, and used for improvement.
Managing Audit Programme Records	Covers proper control, retention, and maintenance of audit records under ISO 19011.
Monitoring Your ISO Audit Programme	Explains how audit programmes are monitored to ensure effectiveness and continual improvement.
ISO 14001 Audit Programme Management	Applies audit programme management principles specifically to ISO 14001 environmental management systems.
ISO 14001 Audit Programme Review	Explains how to review environmental audit programmes for relevance, performance, and improvement.
ISO 14001 Audit Programme Review Assignment	Provides practical application of reviewing and improving an ISO 14001 audit programme.
Initiating an ISO 14001 Audit	Explains how an assigned team leader formally initiates an ISO 14001 audit
Establishing Contact with the Auditee	Covers professional communication and coordination with the auditee before audit execution
Determining Feasibility of an ISO 14001 Audit	Explains how to evaluate whether an audit can be conducted effectively and objectively
Reviewing Documented Information	Applies risk-based thinking to develop effective and focused ISO 14001 audit plans.
Risk-Based Audit Planning	Covers detailed audit planning elements, including schedule, methods, roles, and logistics
Detailing ISO 14001 Audit Planning	Explains preparation of audit checklists, plans, and supporting documented information
Preparing Documented Information	Explains how ISO 19011 supports consistent, professional, and effective auditing practices
The ISO 19011 Guide Role	Covers the purpose, structure, and communication approach for conducting audit opening meetings
The Opening Meeting	Highlights communication skills essential for successful and professional ISO 14001 audits.
Effective Communication in ISO 14001 Audits	Explains how auditors assess records and documents during ISO 14001 audit activities
Reviewing Documented Information in Audits	Covers methods for gathering, sampling, and verifying reliable audit evidence
Collecting and Verifying Information	Explains how auditors develop clear findings based on verified audit evidence.
Generating ISO 14001 Audit Findings	Covers preparation of audit conclusions and professional communication during closing meetings
Closing Meeting and Audit Conclusions	Explains how certification audit results are presented professionally during closing meetings
ISO 14001 Certification Audit Closing Meeting	Explains classification, presentation, and communication of ISO 14001 audit findings
Audit Findings in ISO 14001	Provides practical experience in preparing structured and professional ISO 14001 audit reports
ISO 14001 Audit Report Assignment	Explains how audit methods are selected based on objectives, scope, and criteria
Selecting Audit Methods	
Sampling Methods for Auditors	

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
