CERTIFICATE OF ATTAINMENT

This is to certify that

Jane Doe

has attended and successfully completed the course assessment and examination for the

MASTERING EU MDR ESSENTIALS: PRACTICAL COMPLIANCE FOR MEDICAL DEVICES

This certificate proudly recognizes that the participant has successfully completed the comprehensive program Mastering EU MDR Essentials: Practical Compliance for Medical Devices, delivered through listed, structured, self-paced modules of European Union Medical Device Regulation compliance requirements and practices. Through this achievement, the participant has demonstrated a strong foundational understanding of the European Union Medical Device Regulation (EU MDR) requirements, as well as practical knowledge and essential principles necessary for effective medical device compliance and regulatory practices. This accomplishment reflects the participant's commitment to maintaining high standards of quality, safety, and regulatory excellence in the medical device industry.

Duration : **3 Hours**

Mode: **E-Learning, Video-based, Self-paced**

Issue Date : **03 August 2026**

Certificate No. : **2026-05-101-001/123**

Unique Delegate No. : **2026-0042-123**

Name : Jane Doe

Overall Grade: 85%

Training Program : MASTERING EU MDR ESSENTIALS: PRACTICAL COMPLIANCE FOR MEDICAL DEVICES

This transcript serves as an official record confirming that the participant successfully completed the 2-hour course, Mastering EU MDR Essentials: Practical Compliance for Medical Devices. The course provided a comprehensive introduction to the essential requirements of the European Union Medical Device Regulation (EU MDR), with a focus on practical approaches to achieving and maintaining compliance. Throughout the training, the participant gained an understanding of key EU MDR requirements, important regulatory concepts, and fundamental principles related to medical device compliance. The course also emphasized practical applications and best practices to support effective implementation of regulatory obligations within the medical device industry.

Course Curriculum	Description
Precision in Device Classification	This module covered the key principles of EU MDR device classification and its importance in determining the correct regulatory pathway.
General Safety & Performance Requirements: What to Know First	This module covered Annex I GSPR requirements under EU MDR and their role in demonstrating device safety, performance, and regulatory compliance.
Technical Documentation: Essentials You Must Recognize	This module covered EU MDR technical documentation requirements and how structured evidence supports device safety, performance, compliance, and CE marking readiness.
Conformity Assessment: The Decision Logic	This module covered EU MDR conformity assessment routes and how classification, evidence, documentation, and manufacturer responsibility support CE marking readiness.
Economic Operators & Authorised Representative Essentials	This module covered key EU MDR economic operator responsibilities and how manufacturer, AR, importer, distributor, and traceability obligations support compliant EU market access.
PRRC & Competence Essentials	This module covered the EU MDR PRRC role, including regulatory responsibilities, competence requirements, and evidence needed to support compliant appointment.
UDI Fundamentals	This module covered EU MDR UDI fundamentals, including device identification, traceability, labeling, registration, and economic operator responsibilities.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
