CERTIFICATE OF ATTAINMENT

This is to certify that

Jane Doe

has attended and successfully completed the course assessment and examination for the

PRP REQUIREMENTS FOR TRANSPORT AND STORAGE AS PER ISO/TS 22002-5:2019

This certificate confirms the successful completion of the 4-hour professional course, delivered through listed, structured, self-paced modules of FSSC 22000 Category G PRP requirements for Transport and Storage. The participant has demonstrated understanding of ISO/TS 22002-5:2019 requirements, logistics hygiene controls, storage and vehicle management, material handling, temperature control, traceability, recall readiness, food defense, audit evidence collection, and nonconformity writing.

This learning supports the effective application of prerequisite controls to protect product safety, identity, integrity, and compliance throughout transport and storage operations.

Duration : **4 Hours**

Mode: **E-Learning, Video-based, Self-paced**

Issue Date : **03 August 2026**

Certificate No. : **2026-05-101-001/123**

Unique Delegate No. : **2026-0042-123**

PROGRAM TRANSCRIPT

Name : Jane Doe

Overall Grade: 85%

Training Program : PRP REQUIREMENTS FOR TRANSPORT AND STORAGE AS PER ISO/TS 22002-5:2019

This 4-hour course covered FSSC 22000 Category G PRP requirements for transport and storage operations. It included ISO/TS 22002-5:2019, infrastructure, vehicle control, hygiene, cleaning, temperature control, traceability, recall readiness, pest control, outsourced services, food defense, audit evidence, and nonconformity writing. The participant demonstrated understanding of protecting product safety, identity, and integrity during logistics operations.

Course Curriculum	Description
FSSC 22000 Category G PRP Framework for Transport and Storage	This module covered site environment, facility design, utilities, and storage infrastructure under FSSC 22000 Category G and ISO/TS 22002-5:2019. It addressed layout, zoning, drainage, ventilation, lighting, refrigeration, maintenance, pest-entry risks, product protection, and storage suitability. The participant demonstrated understanding of how infrastructure supports product safety, identity, and integrity during storage and logistics operations.
Site Environment, Facility Design, Utilities & Storage Infrastructure — FSSC 22000 Category G, ISO/TS 22002-5:2019	This module covered material handling, vehicle control, cleaning, and contamination prevention in FSSC 22000 Category G. The participant showed understanding of maintaining product safety and integrity during logistics operations.
Material Handling, Vehicle Control, Cleaning & Cross-Contamination Prevention — FSSC 22000 Category G, ISO/TS 22002-5:2019	This module covered temperature control, stock rotation, traceability, and recall readiness under FSSC 22000 Category G. The participant showed understanding of controlling storage conditions, lot identification, FIFO/FEFO, quarantine, withdrawal, and product safety during storage and dispatch.
Temperature Control, Stock Rotation, Traceability & Recall Readiness — FSSC 22000 Category G, ISO/TS 22002-5:2019	This module covered temperature control, stock rotation, traceability, and recall readiness under FSSC 22000 Category G. The participant showed understanding of controlling storage conditions, lot identification, FIFO/FEFO, quarantine, withdrawal, and product safety during storage and dispatch.
Personnel Hygiene, Pest Control, Outsourced Services & Food Defense in Logistics — FSSC 22000 Category G, ISO 22000:2018, ISO/TS 22002-5:2019 & FSSC Additional Requirements	This module covered personnel hygiene, pest control, outsourced services, and food defense in FSSC 22000 Category G. The participant showed understanding of controlling hygiene, service-provider, security, and product-integrity risks during transport and storage operations.
Audit Application, Evidence Collection, Nonconformity Writing & Final Assessment — FSSC 22000 Category G, ISO 22000:2018, ISO/TS 22002-5:2019 & FSSC Version 6	This module covered audit application, evidence collection, finding classification, nonconformity writing, and final assessment for FSSC 22000 Category G. The participant showed understanding of applying audit judgment and evaluating transport and storage PRP controls against applicable requirements.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
