CERTIFICATE OF ATTAINMENT

This is to certify that

has attended and successfully completed the course assessment and examination for the

CARBON TRADING & REPORTING FOUNDATION PROGRAM

This course provides foundational knowledge, delivered through listed, structured, self-paced modules of India's Carbon Credit Trading Scheme (CCTS), 2023, greenhouse gas emission reporting, carbon credit calculations, compliance procedures, verification readiness, carbon trading mechanisms, and industrial decarbonization strategies. It equips learners with practical understanding of carbon market participation, GHG monitoring, reporting systems, environmental compensation, and low-carbon action planning for professional applications in sustainability, ESG, climate compliance, and environmental management.

Duration : **2 Hours**

PROGRAM TRANSCRIPT

Name :

Overall Grade:

Training Program : CARBON TRADING & REPORTING FOUNDATION PROGRAM

This transcript outlines the curriculum, learning activities and assessments completed under the Foundation of Carbon Trading & Reporting Foundation Program, covering India's Carbon Credit Trading Scheme (CCTS), 2023, greenhouse gas emission intensity (GEI), carbon market fundamentals, carbon credit calculations, compliance obligations, emissions monitoring and reporting, carbon credit trading mechanisms, certificate issuance and surrender procedures, environmental compensation for non-compliance, and the regulatory framework supporting India's climate and sustainability objectives.

Course Curriculum	Description
Introduction to CCTR	Introduces India's carbon market, CCTS 2023, carbon credit basics, reporting, trading, and compliance concepts for beginners.
Charting India's Energy & Climate Journey	Explains India's energy transition, climate goals, Energy Conservation Act, and the legal foundation of CCTS 2023.
Understanding Greenhouse Gas Emission Intensity (GEI) Targets	Covers GEI targets, baseline emissions, reduction pathways, BEE methodology, and verification requirements
Indian Carbon Market Compliance Framework	Explains registration, monitoring, reporting, trading, banking, surrender, and compliance cycle under CCTS.
Carbon Credit Trading Scheme (CCTS), 2023	Explains carbon credit certificate calculations based on achieved GEI performance versus prescribed targets.
Why Purchase Carbon Credits?	Explains the balance between environmental protection and socio-economic development.
Environmental Compensation for GEI Non-Compliance	Covers penalties, CPCB compensation rules, payment timelines, and legal enforcement for GEI non-compliance.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
