This is to certify that

has attended and successfully completed the course assessment and examination for the

CLIMATE ADAPTATION & COST OF INACTION TRAINING COURSE

This course provides learners with a practical understanding of climate risk, business resilience, and ISO-aligned climate adaptation strategies, delivered through listed, structured, self-paced modules of the specified learning areas. Through real-world examples and the GreenTech Industries case simulation, participants learn how climate change affects operations, supply chains, finances, people, processes, brand reputation, and long-term business continuity. The course also highlights how ISO standards, certifications, and transparent management approaches can support credible climate action, strengthen organizational resilience, and create strategic business opportunities.

Duration : **2 Hours**

CLIMATE ADAPTATION & COST OF INACTION TRAINING COURSE

This transcript records the curriculum and assessment activities completed by the participant under the Climate Risk Adaptation & Business Resilience Program. The program builds awareness of climate-related business risks, operational disruptions, supply chain vulnerabilities, financial impacts, brand reputation challenges, and ISO-aligned adaptation strategies.

Course Curriculum	Description
Introduction to the Course	Discover how climate risks impact businesses and how ISO-aligned strategies can turn challenges into opportunities.
Why Climate Adaptation Matters for Businesses and Compliance	Understand why climate adaptation is essential for protecting operations, supply chains, and business continuity.
Case Studies in Climate Adaptation: Learning from Real Industries	Explore real-world climate adaptation examples and learn how businesses respond to disruption.
The Financial Implications of Climate Change	Learn how climate risks affect financial performance, insurance, downtime, and long-term profitability.
Impact of Climate Change on Business Processes & Workforce	Understand how climate change disrupts people, processes, and operations—and how resilience can be built internally
The Cost of Inaction – Branding & Market Position	Explore how climate inaction damages brand trust, investor confidence, and competitive positioning
Certification and Strategic Actions for Climate Resilience	Learn how ISO standards and certifications strengthen climate credibility, compliance, and business advantage
Final Simulation and Course Wrap-up	Apply your learning through a practical climate adaptation simulation based on GreenTech Industries

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
