CERTIFICATE OF ATTAINMENT

This is to certify that

has attended and successfully completed the course assessment and examination for the

DIPLOMA IN HACCP FOOD SAFETY STANDARDS (LEVEL 2)

This food safety training program provided foundational knowledge and practical awareness of essential food safety responsibilities for food handlers and operational staff. Delivered through listed, structured, self-paced modules, covering core food safety principles, safe handling practices, consumer health impacts, basic documentation and deviation reporting. It covered HACCP and ISO 22000 concepts aligned with FSSAI requirements to support effective hazard identification and risk control.

The participant demonstrated proficiency in all topics and completed the program by passing assessments that evaluated both theoretical knowledge and practical application of food safety practices.

Duration : **7 Hours**

Mode: **E-Learning, Video-based, Self-paced**

Overall Grade:

Training Program :DIPLOMA IN HACCP FOOD SAFETY STANDARDS (LEVEL 2)

This transcript documents the curriculum and assessment components completed by the participant as part of the HACCP and ISO 22000 Food Safety Management Systems training program, aligned with FSSAI regulatory requirements and internationally recognized food safety competency standards.

Course Curriculum	Description
HACCP Level-2 Awareness Training	Introduces HACCP Level-2 Awareness, food safety fundamentals, contamination prevention, regulatory compliance, and the role of employees in maintaining safe food manufacturing practices.
Food Safety Culture & Responsibilities	Covers food safety culture, human behaviour, accountability, safe decision-making, compliance, and shared responsibility in maintaining strong food safety practices.
Food Handler Hygiene, PPE & Compliance	Covers food handler behaviour, hygiene, PPE, documentation, reporting, SOP compliance, accountability, and safety culture for effective HACCP-based food safety control.
Food Safety Culture	Covers HACCP-based food safety principles, contamination prevention, cold-chain integrity, legal risks, preventive controls, monitoring systems, and food safety culture.
Impact of Food Safety on Consumer Health	Covers food safety, contamination pathways, health impacts, vulnerable groups, foodborne disease burden, regulations, and preventive practices for consumer protection.
Company Reputation & Legal Consequences	Covers food safety failures, brand reputation, consumer trust, financial losses, legal consequences, FSSAI enforcement, product recalls, and management accountability.
Fundamentals of Food Hazards and Food Safety Management	Covers food hazards, hazard vs risk, biological, chemical and physical contamination, control measures, hygiene, compliance, and responsibility in food safety management.
Introduction to Foodborne Hazards	Covers foodborne hazards, contamination points, public health impact, vulnerable groups, SOP compliance, prevention, and food handler responsibility.
Biological Hazards in Food Safety	Covers biological hazards, harmful microorganisms, contamination sources, cross-contamination, danger zone control, high-risk foods, health impacts, and prevention methods.
Chemical Hazards	Covers chemical hazards, food contaminants, toxins, additives, residues, heavy metals, mycotoxins, pollutants, risk assessment, monitoring, and preventive controls.
Physical Hazards	Covers physical hazards, contamination sources, health impacts, high-risk foods, vulnerable groups, inspection, complaint analysis, HACCP controls, and preventive actions.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
