PROGRAM TRANSCRIPT

Name :

Overall Grade:

Training Program : ISO 22716 GMPS: BEST PRACTICES FOR COSMETICS

This transcript records the curriculum and assessment activities completed by the participant under the ITC India ISMS Induction Training Program. The program is designed to enhance awareness of ISO 27001-based Information Security Management System requirements, ITC India's internal security policies, and practical information security responsibilities applicable to daily workplace operations.

The training is delivered as a structured e-learning program consisting of online self-paced modules covering ISMS fundamentals, confidentiality, integrity, availability, employee and role-based responsibilities, security controls, incident reporting, compliance obligations, and scenario-based knowledge checks.

Course Curriculum	Description
Understanding Cosmetic GMP (ISO 22716)	ISO 22716 purpose, GMP principle, , scope of GMP standard, important terms & conditions, importance of competent personnel
Building the Right Environment: Controlling Premises, Equipment & Materials	Requirements for premises, equipment, and materials management to support GMP compliance in cosmetic manufacturing.
Execution of GMP ISO 22716: Production Operations and Laboratory Oversight	Strengthening Production Control, Laboratory Oversight, Documentation Accuracy, and Batch-to-Batch Consistency in Cosmetic GMP Operations
Management of Non-Conforming Products and Waste under GMP	Managing non-conforming products and waste, focusing on risk control, safe disposal, and prevention of product mix-ups and compliance issues.
Managing GMP Risks and Responsibilities Across the Product Lifecycle	Deviation handling, change control, complaints and recalls, consumer safety, and continuous compliance to support effective quality management across the product lifecycle.
Turning Procedures into Proof: Audits and Documentation That Stand Up to Inspection	Covers ISO 22716 requirements for internal audits, documentation control, data integrity, gap identification, and continuous compliance to support inspection-ready cosmetic manufacturing operations.

This transcript forms an integral part of the Certificate of Attainment and must be read in conjunction with it.
